

Author Biographies

Jiawei Li received the B.S. degree in Software Engineering from Chongqing University, China, in 2015. He is currently pursuing the Ph.D. degree in the Department of Computer Science and Technology of Tsinghua University. His research interests are in the domains of ensemble learning, deep learning and computer vision (human action recognition and pose estimation).

Zhilong Zheng received the B.S. degree from the Department of Software Engineering, Chongqing University, Chongqing, China, in 2015. He is currently pursuing the Ph.D. degree in the Department of Computer Science and Technology of Tsinghua University. His research interests include software-defined networking and network functions virtualization.

Yiming Li received the B.S. degree in Mathematics and Applied Mathematics from Ningbo University, China, in 2018. He is currently pursuing the Ph.D. degree in the Department of Computer Science and Technology of Tsinghua University. His research interests are in the domain of the security of machine learning, including adversarial learning, backdoor learning, robust optimization, and data privacy.

Rubao Ma received the Ph.D. degree and B.S. degree in control science and engineering from the Department of Automatic Control, School of Automation, Guangdong University of Technology, Guangzhou, China, in 2016 and 2011, respectively. Currently, he is with Bright Dream Robotics, Foshan, China. His research interests include statistical signal processing, control theory, statistical learning theory, machine learning, optimization theory, and digital signal processing.

Shu-Tao Xia received the B. S. degree in mathematics and the Ph.D. degree in applied mathematics from Nankai University, Tianjin, China, in 1992 and 1997, respectively. Since January 2004, he has been with the Graduate School at Shenzhen of Tsinghua University, Guangdong, China. He is now a full professor there. From March 1997 to April 1999, he was with the research group of information theory, Department of Mathematics, Nankai University, Tianjin, China. From September 1997 to March 1998 and from August to September 1998, he visited the Department of Information Engineering, The Chinese University of Hong Kong, Hong Kong. His current research interests include coding and information theory, networking, and machine learning.
