

## **General**

**Name** : Xiaolin Yu

**Date of Birth** : 1996.05.03

**Major** : Control Science and Engineering

**Nationality** : China

**Research Area** Prognostics Health Management, Availability and Maintainability of ship

## **Research Projects**

Ship and Marine Equipment Integrated Support System

Ship Security Index System and Resource Optimization Research

## **Academic Achievements**

Applied for one Chinese invention patent: A fault identification method based on improved GWO-AFSA-SVM for Marine power equipment
